

Italian Restaurant Franchisor's Digitalization System

- The system is divided into several modules, including the Franchisee Portal, Centralized Platform, Inventory Management, Training Module, Communication Hub, Data Analytics, Support and Ticketing, and Brand Compliance.
- The Franchisee Portal allows franchisees to access various features, including training resources, communication tools, and issue reporting.
- The Centralized Platform acts as the core of the system, connecting all modules and serving as the main communication and data hub.
- Inventory Management, Training Module, Communication Hub, Data Analytics, Support and Ticketing, and Brand Compliance are subsystems within the Centralized Platform.
- Each subsystem interacts with a database server for data storage and retrieval.
